

2017-2018 Community Grants RFP Questions and Answers

Program	Description	Question	Answer
TAY Workforce Development	Job Developer & Intake Specialist	For the TAY Workforce Development – Job Developer & Intake Specialist – Can you tell me more about the objective for this opportunity? I’m assuming the objective is to place youth from District 11 in jobs – if so, do the jobs need to be in the district or can they be anywhere in the City?	There is no further description provided in the RFP regarding program objectives. The services provided must take place in the district, not necessarily the ultimate job placement.
Youth and Family Engagement	Maintain service for 168 students in daily after school programs and 400 in summer programs	Can you please clarify the description “Maintain service for 168 students in after school programs and 400 in summer programs”. Is this meant to be for any organization currently doing appropriate programs in District 11 and serving at least those numbers of students?	There is no further description provided in the RFP for this proposal.
